TECHNICAL SKILLS

Since childhood, I joined B Tech Electronics due to my interest in electronics, which helped me a lot. I made many electronics equipment in my life, some of which were unique. Due to this many awards were also given to me.

EDUCATION

**Delhi institute of engineering and technology meerut
(AKTU LUCKNOW)**

B.tech electronics and communication engineering
77%

PROJECTS

Umcd electronic device (pm of india also congratulated)

3 year

Umcd is a unique device which full name is unprogrammable multitasking converter device which was created by me which was printed in many newspaper..it can perform 52 application. because of this i got an chance to communicate with many media "Prime Minister Narendra Modi "also congratulated for this device.The meeting with him was canceled at the Delhi IIT due to the epidemic (covid19).This device could easily read the signal sent by the enemy, that is, it could see it completely.Could see the programming that takes place inside the electronic chip.This device was a weapon of our army.

Electronic smart helmet with many features.

17 days

Due to interest in the field of electronic science i have prepared so many projects in electronics science but This electronics smart helmet was also one of them...There were seven functions inside it to control, but the most important of them was the calling inside it, which could make any automatic call to any hospital when there was an accident.

Social distancing electronics breezlate

2 month

INTERESTS

Electronics science...In moving forward with innovation.

PERSONAL STRENGTHS

My strength are hard worker, self-motivating and dedicated to my work.

A device capable of providing social distancing to 134 crore people. This device is made in this epidemic (covid19) time..

This device was published in all newspapers, This device is also being shown through the news of India....

Features of the device.

A ... If a person tries to break the social distance, then this device will be capable of hitting 0.3 second like police which will be as punishment. In the future, he will never break social distancing

B. 134 crore people away. The device will force 3 meters social distance! ...

C. People will not be able to remove this bracelet even if they want to. If someone tries to remove it, this device will become active and will teach it a lesson so that it cannot be removed ... only 9 minutes after coming home Will be able to take the device off your hand

D. The battery life of this electronic bracelet is 6 months ...

E. Punitive hitting of this device will not affect our body. Only our mentality will feel like someone has beaten us with sticks. That is why this device will prove to be a boon in this epidemic.

ACHIEVEMENTS & AWARDS

I got many awards due to my interest in electronics, but I got a great award for creating a unique project ...

Under the 12th Standard Science Competition, which was held at the R.J Inter College Meerut (Uttar Pradesh), I won a prize of ₹ 11,000 on a solar based project..
